Approval Process :

In order to obtain this approval the company must supply proof that the calculation method it uses is correlated by testing based on a safety cage in compliance with current Homologation Regulations for safety cage. The tests must be carried out by an institute approved by the FIA (see Technical List n°4) or by a company approved by the ASN.

Alternatively to obtain the approval, an institute have the option to provide a calculation report according to modalities herunder.

APPROVAL
PROCEDURE for cal c

Once approved, the company must prove every year that it has made at least one calculation report for a cage manufacturer in order to obtain homologation.

Failing this, the approval will be cancelled at the request of the ASN concerned.
